# Introduction

The Congregation of Sisters Adorers, Handmaids of the Blessed Sacrament and of Charity was founded in 1856 by St. Maria Micaela, to respond to an urgent need of her time: to liberate women oppressed by prostitution.

From our foundation until today, we work, developing programs of social intervention with women excluded by trafficking, prostitution, violence within the couple, as well as other social problems that have arisen over the years.

For this reason, the 8th of March, International Women's Day, is a special day for us.

In this document we gather the different digital resources, news, audiovisuals, and other types of documents in which our congregation is present in relation to this day.

**Abstract:** Women and girls suffer more from the impact of the climate crisis, since, according to the UN, they are more dependent on natural resources. Enhancing gender equality in the context of the climate crisis and disaster risk reduction is one of the greatest global challenges of our century. 8M: Gender equality today for a sustainable tomorrow, is the slogan chosen this year by the UN to commemorate International Women's Day, which we at the Amaranta Solidarity Foundation join.
