

**“Processes and structures for the accompaniment
in vocational youth ministry”**

Dear Adorers Family,

On 10 September 2022, the VI Training Module for Adorer Pastoral Agents was held: “Processes and structures for accompaniment in vocational youth ministry”.

The speaker of this module was Father Koldo Gutiérrez Cuesta sdb, the trainer of the Salesians, theology students in Spain. He has dedicated a large part of his life to youth ministry, in a practical way and with contributions in pastoral reflection.

First, we want to explain about the photo that he offered for a laywoman committed to ministry, Ruth Puga Fuentes, who participated in the PEJ with the Youth Group. She says, *“In the photo we are in the Bonaval park in Santiago, during the PEJ, that morning the young people had asked us to have a moment of prayer and meeting together, away from the hustle and bustle of the thousands of participants. We took advantage of the opportunity for Ann to tell them about her training process and her vocation. It was a nice moment of getting to know each other.”*

(Note: PEJ stands for European Youth Pilgrimage and was held from August 3 to 7, 2022 in Santiago de Compostela)

Fr. Koldo began his talk, “I put as my main focus the word vocation. Today this word has great importance in pastoral reflection. Let us not forget that our fundamental objective as pastoral agents, is to help young people to live their existence as Jesus has seen it and dreamed of it. In essence, that is what a vocation consists of.”

Below we attach the material of said training space.
