SUMMARY

# Introduction

It is necessary for any person or institution to be aware of new developments or news that arise on issues that affect us directly. For this reason, this press dossier has been compiled so that the entire Adorers family can be "up to date".

In order to achieve this objective, we will gather news on a bi-weekly basis, based on three fundamental axes:

1. The presence of our Congregation in the media.
2. News about the different projects of the Adorer Family.
3. News about Human Trafficking and Sexual Exploitation.

The aim of these materials is to make the Adorer Family aware of the social work carried out by our Congregation as well as the dramatic situation against which, fundamentally, we put all our effort and commitment.

**Abstract:** This Sant Jordi will be in solidarity with the limited edition soap, in the form of, which has been prepared by women survivors of human trafficking, in the framework of their project #SabonsESKADE. The price is €3.5/unit. What started as a simple activity to improve psycho-emotional health during quarantine has evolved to the point where it has become a pilot project for pre-employment self-employment. The name of the brand, ESKADE, responds to the initial names of its creators and each of them has a different role in the internal organization of the project. Through this activity, the women have a better understanding of how business finances work, what a viability plan is, invoicing... and they have even drawn up a small marketing and communication plan. **Date:** 04/04/2022

**Abstract:** Last week we participated in the different events organised by the Colegio del Recuerdo on the occasion of its XL Fiesta Solidaria del Trabajo y la Alegría. After two years of online formation or in reduced groups, this year we have returned in person to the prayer meeting with the youth communities, a talk for 175 high school students, and to the day of the festival itself, on Saturday, in coordination with @Mujerwanawake. We had the opportunity once again to join forces with @Mujerwanawake, in the company of the women from the pre-labor workshop. It is an event that we are particularly excited about because of the enormous participation of the school's educational community, the involvement of our women, because we were able to publicize the Maua Project and because we got to know first-hand the work of many other organizations. We were there with the handicrafts finished by the women of the workshop, spending an afternoon in which we all enjoyed ourselves. We continue to perceive the need to work on raising awareness and dialogue among young people to highlight the reality of human trafficking. We must continue to have pedagogical tools that make our discourse reach an entire educational community such as the Colegio del Recuerdo, through the different channels they offer us. Once again, we would like to thank the organizing team of the @FSTA1982 for having counted on us once again and we invite you to continue working in this alliance so that we can share our achievements and progress next year. I'm sure you are one of those who like this kind of alliance and civil society meetings. Tell us in the comments, because it gives us the strength to continue working as a network.

**Abstract:** Yesterday we were providing formation at the reception Centre, for Ukrainian people seeking temporary care, attention protección in Pozuelo de Alarcón. We attended together with @inclusiongob the three entities that specialized in detecting victims of trafficking: @diaconia, APRAMP, and @ProyectoEsperanzaAdoratrices. We held two formation sessions aimed at the staff of the Social Work Unit of @inclusiongob and the organization @Accem, which manages the center. In terms of the contents addressed, we recalled:

- What is trafficking.
- The different profiles of victims and traffickers.
- The different scenarios and purposes of trafficking.
- Indicators for detection.
- Case studies.
- Procedure to follow in case of indications to contact specialized entities so that they can assess the needs of the victims and offer them protection.

We welcome the opportunity to further strengthen links and networking to fight trafficking in a more effective and coordinated way.

**Abstract:** We close the week remembering how we opened it. On Monday we had the luxury of inviting the @mundo\_cooperante team to lunch at the house of the Community of the Sisters Adorers. For years, Project Esperanza has been receiving support from this NGO for the development of projects that are not easily financed by public administrations, as they face exploitation profiles that do not fall under the radar of the different administrative systems. In March we concluded the first period of collaboration under an agreement format, which has allowed us to attend to women victims of trafficking for other less visible forms of exploitation, such as domestic service, forced labor, or the commission of crimes. We would like to thank the Mundo Cooperante team for this alliance based on trust and a shared mission. We are fighting together for a world free of all kinds of violence for the women and girls we work for. Thank you for joining us and contributing to #counter-trafficking with such complicity, professionalism, and a broad smile.

**Abstract:** The weekend left us with a sea of very positive feelings among the women we welcomed. The educational team organized a workshop to make dream catchers with different fabrics and materials. The idea of being able to give shape to your dreams through your hands is very empowering and a beautiful exercise in self-esteem and self-care. Here are the results. We hope you like them as much as we enjoyed watching the process. We encourage you to fill the comments with hearts so that we can spread enthusiasm to the survivors. Thank you as always for your complicit gesture.

**Abstract:** There are steps in life that you have to take alone and others that require the support of a group. We know that in Proyecto ESPERANZA and that is why we offer comprehensive and specialized attention at an individual and group level, as both complement each other. We recognize the importance of working in both dimensions. Individual work allows us to monitor each woman on a personalized level, and group work facilitates meetings between women and mutual support. Seeing other women who have made progress in their recovery processes has a motivating effect on those who are beginning the process. It allows them to see that it is possible to rebuild their lives. And now tell us... Where have you recognized the value of the collective?
