SUMMARY

# Introduction

It is necessary for any person or institution to be aware of new developments or news that arise on issues that affect us directly. For this reason, this press dossier has been compiled so that the entire Adorers family can be "up to date".

In order to achieve this objective, we will gather news on a bi-weekly basis, based on three fundamental axes:

1. The presence of our Congregation in the media.
2. News about the different projects of the Adorer Family.
3. News about Human Trafficking and Sexual Exploitation.

The aim of these materials is to make the Adorer Family aware of the social work carried out by our Congregation as well as the dramatic situation against which, fundamentally, we put all our effort and commitment.

**Project:** Proyecto Esperanza Adoratrices.

**Date:** 21/06/2022

**Abstract:** Yesterday the whole Proyecto Esperanza team met to share the strategic priorities for the coming months. We are aligning our work with the strategic dimensions identified in the joint work we did as a whole Welfare Project with a view to obtaining the EFQM quality seal last year. We are reflecting on working with profiles of victims of other forms of trafficking that are even more invisible than sexual exploitation, we will prioritize making a digital leap that includes both equipment and skills in the team and we are reviewing the processes and indicators to make them more streamlined, always seeking to connect theory with practice. We have also decided to spend the second part of the morning sharing together, with the rest of the team, the last group supervision session of the team. This work is part of the proposals of the Internal Protection System and has been accompanied by an external professional, Carlos Albares. We seek to continue generating safe and caring environments and this specific work focuses on the care of the professionals who are in charge of the task. We are about to start the holiday season and this meeting has been a turning point that has allowed us both to look back, compiling and becoming aware of achievements and improvements made, as well as to look ahead, facing the exciting future that awaits us after the holidays. We continue!!! With all the enthusiasm in the world and with our batteries charged.

**Abstract:** Yesterday we had a strategic meeting to continue taking further steps in our quality system. Carmen Bruñó, Intervention Coordinator and the Quality Coordinator, Antonio Rivas met with those responsible for the services of the project. We have been working for several weeks on the revision of the processes and the updating of the indicators, in order to systematize our practice. We want to match as much as possible our reality in the intervention with our theoretical proposal. Having documented and revised processes gives us a solid, evaluable framework for action that allows us to continue advancing on a path of continuous improvement. It is a gift to have a committed team capable of taking a break from the hustle and bustle of everyday life to reflect together and be able to extract the best results from our work. Over the last few months, the School for Women Leaders has provided a space for training and reflection where knowledge, tools and spaces for mutual learning related to personal empowerment, human rights, gender equality, communication, conflict resolution and personal self-care have been offered.
