SUMMARY

Introduction

It is necessary for any person or institution to be aware of new developments or news that arise on issues that affect us directly. For this reason, this press dossier has been compiled so that the entire Adorers family can be "up to date".

In order to achieve this objective, we will gather news on a bi-weekly basis, based on three fundamental axes:

1. The presence of our Congregation in the media.
2. News about the different projects of the Adorer Family.
3. News about Human Trafficking and Sexual Exploitation.

The aim of these materials is to make the Adorer Family aware of the social work carried out by our Congregation as well as the dramatic situation against which, fundamentally, we put all our effort and commitment.

Abstract: A few days ago, with Proyecto Esperanza Adoratrices, we took part in the annual meeting of the European Platform La Strada International. In Helsinki, we exchanged experiences and knowledge on different topics related to:

- Identification.
- Protection.
- Access to rights for victims of trafficking.

We also discussed in depth the mechanisms of #counter-trafficking and accompaniment of survivors in Finland.

In addition, the meeting also served to identify key advocacy issues at the European level in relation to strengthening the human rights of victims and survivors of trafficking. La Strada International is made up of European NGOs specialized in the support and accompaniment of victims of #trafficking and both our colleagues from Proyecto Esperanza and ourselves are associate members of the organization.

Abstract: Last week we participated in Brussels in the final meeting of the European programme "Strengthening support and protection systems for victims of human trafficking in Europe", led by the private philanthropic organization @Porticus, in which 27 organizations from 8 European countries have participated.

At the Brussels meeting we were able to share the learnings in the framework of the project Speaking Out También Es Trata, implemented together with @SICARcat between July 2019 and June 2021.

The aim of this project was to influence regulations, public policies and protocols for action against human trafficking in Spain to ensure protection and access to rights for trafficked women and girls, especially for those exploitation purposes (in forced labour or services in domestic employment, for forced criminality and for forced marriages) that have remained invisible and under-detected.

The Speaking Out #TambienEsTrata project was chosen by the AVANCE consultancy to carry out a case study on structural changes in protection and support systems for victims of human trafficking to which the project of Porticus has contributed.

The meeting also served to carry out advocacy at regional level through dialogue with Members of the European Parliament Mr Juan Fernando López Aguilar (President of the Committee on Civil Liberties, Justice and Home Affairs) and Ms María Soraya Rodríguez Ramos (Member of the Committee on Women's Rights and Gender Equality).

11

Currently Proyecto Esperanza and SICAR cat are implementing the project Speaking Out II, which aims to give continuity and deepen the main issues related to access to rights of lesser known victims of trafficking for exploitative purposes, as well as the participation of victims and survivors of trafficking .

Abstract: We want to create a common territory from which to work on the recovery of trafficked persons through sisterhood. Working with groups is a necessary tool to promote mutual support, recognition and empowerment. In this way, group activities with different objectives are encouraged and favoured: therapeutic, educational and leisure. The team promotes a programmed and permanent space for group workshops, as a meeting place that favours interaction and awareness of themselves as free women and promotes their life project, based on their own autonomy.

Abstract: Whether you are on holiday, teleworking or moving to the office, we invite you to a reading with a cup of coffee or tea. We have compiled in our pressroom the most representative impacts of the last year and since we started in 1999. We care about the quality of the message and the protection of survivors.

- We care about anonymity and women's safety.
- Avoid re-victimizing women through sensationalism, morbidity and/or vulgar and degrading language.
- Avoid reporting that reinforces clichés and stereotypes and does not delve into the complex reality of trafficking.
- Highlight both the problems faced by victims and their skills and courage .
