SUMMARY

Introduction

It is necessary for any person or institution to be aware of new developments or news that arise on issues that affect us directly. For this reason, this press dossier has been compiled so that the entire Adorers family can be "up to date".

In order to achieve this objective, we will gather news on a bi-weekly basis, based on three fundamental axes:

1. The presence of our Congregation in the media.
2. News about the different projects of the Adorer Family.
3. News about Human Trafficking and Sexual Exploitation.

The aim of these materials is to make the Adorer Family aware of the social work carried out by our Congregation as well as the dramatic situation against which, fundamentally, we put all our effort and commitment.

The Adorer Family

Abstract: On the occasion of the European Day against Trafficking in Persons, tomorrow, October 18, the Group “Weaving Networks against Trafficking” has organized an event in the online format, with the title “Trafficking in persons. Difficulties and Challenges”. Our awareness and political incidence coordinator will cover the part in which trafficking will be addressed for the purpose of exploitation for #forced marriage and for the commission of #criminal activities or #forced criminality.

“Weaving Networks against Trafficking” is a group made up of Caritas, Justice and Peace, CONFER Nacional and the Episcopal Sub commission for Migration and Human Mobility through the Trafficking Department.

We appreciate the invitation to continue deepening into the obstacles that we still find when intervening with people who are victims of trafficking, as well as the challenges that we currently have ahead of us to continue giving the appropriate responses.

The event can be followed through the YouTube channel of the Trafficking Department of the Episcopal Sub commission for Migration and Human Mobility.

- Day: October 18
- Time: 6:00 p.m. to 7:30 p.m.

Abstract: Today we want to share some photos of last Monday's reception session of the new professionals who join the team, specifically educators and lawyers.

During the session we shared the identity of being an Adorers' project, the provincial organization and the operational organization of the project; always seeking to share what else each of the specific tasks entrusted to each one is part of.

Investing in welcoming the team, opening communication channels, in explaining the values and approaches from which the intervention is carried out is important to ensure that the professionals align their actions within the institutional and strategic framework of the project.

Welcome to these new colleagues who will bring us a new look and know-how that we will have to integrate to continue advancing in work with women survivors of trafficking.

Abstract: Yesterday and today we participated in the joint session of the European network of national rapporteurs and equivalent mechanisms and the European civil society platform against human trafficking that was held in Brussels on October 26 and 27.

The meeting focused on the impact of the European plan against trafficking in the context of the war in Ukraine and on strengthening cooperation between national authorities and civil society organizations in the implementation of the European #counter-trafficking strategy.

It has been an opportunity to learn about the work, good practices and challenges in different European contexts. This meeting reinforces the importance of joint learning and exchange spaces.

Abstract: With the weekend and holidays just around the corner, today we want to share a video in tribute to the beautiful day that we spent last October 12.

We made an outing to the Enchanted Forest with the women in foster care in the residential resources. A wonderful group of 16 trafficking survivors enjoyed the Botanical Garden and Museum of Plant Sculptures thanks to the support and accompaniment of the organization Avanza NGO.

This activity is part of the social health program that aims to encourage and facilitate participation in activities that contribute to the well-being and comprehensive health of women.

This implies a link with the environment, as well as establishing and maintaining satisfactory human relationships.

As our psychologist and head of comprehensive health Iskra Orrillo point out: "We are indivisible beings".

Our purpose is to support women in the process of recovering their comprehensive health, favouring the acquisition of nutrition, rest and physical exercise habits, as well as offering psychological care to restore their physical, emotional and social well-being.

Abstract: Within the framework of the joint project between the Ministry of Inclusion, Social Security and Migration (DGSAPIT) and the UN Agency for Refugees (UNHCR) for the implementation of the Protocol of Action against violence against women in the Reception System of International Protection, Adorers Europe-Africa has participated in the seventh session of the Network Working Group of the Protocol.

It was a closing session of this first phase of the project in which the results of the project and the materials were presented, aimed at both refugees and applicants for international protection as well as technical personnel, prepared as part of the actions of the project.

It has been a "very participatory process with the presence of two reference professionals from the Adorers together with all the organizations that develop projects within the framework of International Protection." During these months "we have been present in two of the working groups that have been formed, contributing our experience and knowledge, specifically on the Care of equipment and the connection between the Protocol on Gender Violence and Trafficking" point out the participants. Also, during this session we wanted to recognize all the professionals who with their enthusiasm, effort and involvement have actively worked on this Project.

Abstract: We have reached 18 months of the online platform and we share its progress. Today, October 20, the presentation was made with the results of the 18-month intervention of the Online Adorer Platform in Colombia, reaching 253 scholarship holders located in Bogotá, Bucaramanga, Manizales, Pereira and Virginia. "The scholarship recipients know that a world of possibilities is just a click away. This first phase of the project, through which they were constantly, monitored now moves on to a new phase, where autonomy, co-responsibility and scholarship recipients are strengthened by them. They can continue exploring the platform and locate the training that interests them the most" emphasized the Provincial Superior of Adorers, South America Sister Gabriela Valot. This activity was attended by the Directress of the Amaranta Solidarity Foundation, Sister Maria Luisa Puglisi, who emphasized the installed capacity that is left through this project to strengthen the skills of the scholarship recipients. The Government of La Rioja was thanked for its financial support for this initiative.

Abstract: We celebrate 30 years of Adorers presence, in the Pampa, Argentina. We make them participate in this path that we have been carrying out together Sisters, lay people and women.

Ignacio and Yamila, lay people who promote the Mission currently in the place, express:

"Years of commitment to the charism, with the conviction that God wants us here guarding the life of each woman who is accompanied, keeping alive the burning torch that Santa Micaela gave us through the Religious Community."

The lay couple also tells us, "Sisters Adorers left traces in these lands, both in their inhabitants and in their interlocutors, who today more than ever make grateful memory of this beautiful Eucharistic-Liberating Charism, which today is still present in the hands of trained Lay people and committed to the mission."

Yesterday and today with the same charisma, for them and with them, follow the light of the Spirit recreating the ways in each place.

Abstract: This morning the presentation and signing ceremony of the "Citizen Agreement for an Inclusive Valencia" took place, in which our colleagues from the Valencian Community delegation participated. It is a space for cooperation between civil society and the Valencia City Council, through the Department of Social Services, whose purpose is to promote inclusion and social cohesion through joint actions.

This agreement is the result of a participatory process that was held between May and June 2022 in which various entities participated, including the Amaranta Solidarity Foundation, which adheres to this project that seeks to promote coexistence, neighborhood relations and community cohesion through collaboration between Social Services and entities.
